--------------	----------

`guest_list`*List Available Gifs in Parrot Directory*

Description

List Available Gifs in Parrot Directory

Usage

```
guest_list()
```

Value

character vector of available gifs

Examples

```
guest_list()
```

`parrot_download`*Download Party Parrots for Local Use*

Description

Download Party Parrots for Local Use

Usage

```
parrot_download()
```

Value

character vector of paths to downloaded files, invisibly

Examples

```
parrot_download()
```

parrot_download_dir *Parrot Download Directory Path*

Description

Parrot Download Directory Path

Usage

```
parrot_download_dir()
```

Value

path to directory

Examples

```
parrot_download_dir()
```

party *Print a Party Parrot to the Viewer*

Description

Print a Party Parrot to the Viewer

Usage

```
party(parrot, ..., height = 30)
```

Arguments

parrot	name of parrot gif
...	additional arguments to pass to <code>htmltools::div()</code>
height	height of the parrots. Default is 30. Larger may work well for HD parrots.

Value

HTML version of the parrot

Examples

```
party('parrot')  
party(c('parrot', 'sadparrot', 'zimbabweparrot'))
```

party_html *Return HTML format of Party Parrots*

Description

Return HTML format of Party Parrots

Usage

```
party_html(parrot, height = 30)
```

Arguments

parrot	name of parrot(s) gif
height	height of the parrots. Default is 30. Larger may work well for HD parrots.
...	additional arguments to pass to <code>htmltools::div()</code>

Value

HTML div containing parrots

Examples

```
party_html('parrot')
party_html(c('parrot', 'sadparrot', 'zimbabweparrot'))
```

party_md *Return Markdown format of Party Parrots*

Description

Return Markdown format of Party Parrots

Usage

```
party_md(parrot, height = 30)
```

Arguments

parrot	name of parrot(s) gif
height	height of the parrots. Default is 30. Larger may work well for HD parrots.
...	additional arguments to pass to <code>htmltools::div()</code>

Value

HTML div containing parrots

Examples

```
party_md('parrot')  
party_md(c('parrot', 'sadparrot', 'zimbabweparrot'))
```
